

AKVIS Inspire AI 2.0: Turn Your Photos into Artworks Using Reference Images!

September 29, 2023 – AKVIS announces a major update of AKVIS Inspire AI, the neural networks-based software for artistic stylization of images and creating artworks from samples. Version 2.0 offers support for the Batch Processing feature and new groups of samples in the Gallery of Styles.

AKVIS Inspire AI generates totally new artworks by copying a style of reference images. By imitating the artist's brush strokes, color palette, texture, and painting technique, the artificial intelligence creates works of art, indistinguishable from traditional masterpieces. This cutting-edge software includes a gallery of styles and the possibility to load a custom sample. The program adapts a photo to suit the chosen style, resulting in a unique and captivating piece of art.

Version 2.0 supports the new Batch Processing feature for rendering multiple images. Users can apply the selected style to a folder of photos or try on different styles on an image. This mode can also be used to process a sequence of video frames to achieve a unique visual effect and artistically stylize a video.

Also, the update includes new groups of samples in the Gallery of Styles: Architecture and Flowers. Now the program offers even more samples to create new masterpieces. In addition, the update introduces many other improvements and fixes.

Download AKVIS Inspire AI from akvis.com. The 10-day trial period is fully functional and has no restrictions.

The software is cross-platform and runs on Windows 7/8/8.1/10/11, macOS 10.12 (Sierra)-macOS 13 (Ventura), and Linux - 64-bit. The program offers a multi-language user interface.

AKVIS Inspire AI is available as a standalone application and as a plugin for [AliveColors](#) by AKVIS, Adobe Photoshop, Corel PaintShop Pro, Affinity Photo, ON1 Photo RAW, and other [image editing programs](#).

The product comes in Home (either Plugin or Standalone, \$ 49), Home Deluxe (Plugin & Standalone, \$ 69), and Business (Plugin & Standalone for commercial use, \$ 99) versions (lifetime licenses). Consult the official website akvis.com for more details about the software.

AKVIS (akvis.com) specializes in the development of photo & video processing software. Since the company's launch in 2004, it has released a wide selection of successful multi-platform products. The company always keeps up with the times, updates its products with cutting-edge technologies, and launches innovative, inspiring products.
