Create Artistic Images with AKVIS ArtSuite 18.0: Now with Text!

October 23, 2020 — AKVIS announces the major update of AKVIS ArtSuite, a collection of versatile frames and effects for digital photos. Version 18.0 offers the new Text tab by users' requests, improvements for Hand Painted Frame, and other changes.

AKVIS ArtSuite contains a set of incredible visual effects and frames for photographs. The program makes it easy to create a personalized greeting card, a photo book, to prepare engaging images for social media, beautify profile photos, or just to give a picture an original and festive look. The update expands your creative possibilities.

Version 18.0 presents a long-awaited feature: the program now allows adding text or watermark to images. Adding text is essential for creative projects. The text grabs attention and makes the image more stylish, eye-catching, and enjoyable to view. The new *Text* tab offers a wide range of settings. Users can put a title or an inscription on a picture. Applying an outline glow effect to the text makes it more appealing. It's possible to upload a logo and adjust its opacity, thus creating a watermark.

The recent version brings more usability, flexibility, and better processing speed in the *Hand Painted Frame*. ArtSuite now works better with ready-made templates. The update also provides some interface and stability improvements.
