

AKVIS Sketch 26.0: New Photo-to-Drawing Mode - Multistyle

January 18, 2023 – AKVIS announces a major update of AKVIS Sketch, one of the top photo to drawing software. Version 26.0 presents the new photo-to-sketch conversion style - Multistyle, with a series of presets and adjustable settings, as well as support for Linux, and other changes.

AKVIS Sketch is the leading photo-to-drawing software, entertaining and inspiring, with an extensive range of creative features. The program makes photos look like real drawings close to the results a real artist would get. AKVIS Sketch is widely used by graphic enthusiasts, as well as by professionals, design and animation studios, movies and video game creators.

Version 26.0 presents the new photo-to-sketch conversion style - **Multistyle**, designed for those who love bold experiments in graphics. It is a complex drawing style that allows you to make the effects of pastels, felt-tip pens, oil pencils, wax crayons, and much more. It allows users to make digital art with different techniques.

Now the software includes four rendering styles: **Classic**, **Artistic**, **Maestro**, and **Multistyle**. Each style is equipped with sets of presets and fully customizable parameters, as well as decoration options to create a unique and authentic artwork.

Also, the new version supports Linux OS and offers minor improvements and bugs fixes.

Download AKVIS Sketch 26.0 from akvis.com and try its exclusive features during the 10-day trial period.

Giving users complete freedom and variability of use, AKVIS Sketch is available as a standalone application and a plugin filter for **AliveColors** by AKVIS, Adobe Photoshop, Corel PaintShop Pro, Affinity Photo, and other compatible graphics editors. The software runs on Windows 7-11 (32/64-bit), macOS 10.12-13.0 (64-bit), and Linux OS (64-bit). AKVIS Sketch supports a multi-language interface.

The product comes in Home, Home Deluxe, and Business versions (lifetime licenses), with differing levels of functionality. The Home license sells for \$ 72.00. The update is free for users who bought the software in the last 12 months. Users, whose licenses are older and are not valid for the new version, can get Sketch 26.0 for only \$14.95. For more details about the software, please visit akvis.com.

AKVIS (akvis.com) specializes in the development of photo & video processing software. Since the company's launch in 2004, it has released a wide selection of successful multi-platform products. The company always keeps up with the times, updates its products with cutting-edge technologies, and launches innovative, inspiring products.
