

AKVIS Artifact Remover AI 3.0: New Extreme Mode to Instantly Remove JPEG Artifacts

August 24, 2023 – AKVIS announces a major update of AKVIS Artifact Remover AI, a free AI-powered image enhancement program that allows users to get rid of JPEG artifacts, noise, and other flaws and defects caused by compression. Version 3.0 presents the brand-new Extreme mode which takes artifact removal to the next level.

AKVIS Artifact Remover AI enhances the quality of compressed images, eliminating compression artifacts and digital noise. The program uses machine learning algorithms to remove various types of defects.

Version 3.0 provides four processing modes based on the image quality: *Low Compression*, *High Compression*, *High Compression with Noise*, and the new *Extreme* mode. Each mode involves a unique neural network developed especially for this occasion.

The new *Extreme* mode allows users to recover badly damaged photos, resized and resaved with compression many times. The new neural network is great for extremely bad cases and helps to recover even those photos that seemed to be hopelessly damaged.

Also, the update offers some usability and stability improvements.

Download AKVIS Artifact Remover AI 3.0 free of charge at akvis.com.

The software is multi-platform and runs on Windows 7/8/8.1/10/11, macOS 10.12 (Sierra)-macOS 13 (Ventura), and Linux - 64-bit only.

The product is available as a standalone application and a plugin for [AliveColors](#), Adobe Photoshop, and other compatible [image editors](#). The program supports a multi-language interface.

AKVIS Artifact Remover AI 3.0 comes in Free and Business versions, both are fully functional. The Free license is available for home users. For commercial use, a Business license (\$39) is required. For more details about the software, please visit akvis.com.

AKVIS (akvis.com) specializes in the development of photo & video processing software. Since the company's launch in 2004, it has released a wide selection of successful multi-platform products. The company always keeps up with the times, updates its products with cutting-edge technologies, and launches innovative, inspiring products.
