

## AKVIS Draw 7.0: Make Your Photos Look Hand-Drawn! Additional Effects

*July 10, 2018 – AKVIS announces Draw 7.0, a photo to sketch software for Windows and Mac. The recent version provides the Additional Effects group that contains a number of parameters for enhancing the expressive power of an image. Also, the software offers the Notification Panel, support for more RAW files, new presets, and bug fixes.*

**AKVIS Draw** is a unique artistic software that transforms digital photos into hand drawn pencil sketches. The program puts all the creative potential in the hands of people without any drawing skills. It renders various drawing styles - both b&w and color - imitating a true artist's view.

**Version 7.0** provides a number of *Additional Effects* that allow to make a result image even more spectacular. The new settings add depth to the image, imitate a pencil texture, and make the image appear more defined.

The pull down *Notification Panel* keeps customers informed about software updates and new products.

Also, the new version offers support for more RAW files, new presets, and minor bug fixes.

[Download AKVIS Draw 7.0](#) and try all features of the software during the 10-day trial period.

The software runs on Windows XP, Vista, 7, 8, 8.1, 10; Mac OS X 10.7-10.11 and macOS 10.12-10.13. The product is available as a standalone application and as a plugin filter for [AliveColors](#), Adobe Photoshop and other image editors.

**AKVIS Draw**, Home license, sells for \$49. One license key allows activating and using the software on two computers. [Consult the official website](#) for more details about license types and prices of the software.

The update is free for users who bought Draw in the last 12 months. Users, whose license is older and is not valid for the new version, can get Draw 7.0 for only \$14.95.
