

## AKVIS NatureArt 11: Let It Snow! Brand New Effect

December 19, 2018 – AKVIS announces the release of NatureArt 11, a tool for imitating natural phenomena on digital photos. Version 11 introduces the new Snow effect that adds falling snowflakes and fog to digital images making them look like winter wonderland. Also, the recent version offers a number of new built-in presets, the Notification Panel, the Chinese interface language, etc.

**AKVIS NatureArt** applies realistic nature effects to digital photos. It is possible to add the effects to existing images or create new images from scratch.

**Version 11** offers 12 breathtaking nature effects: Rain, Sun, Water, Lightning, Clouds, Frost, Rainbow, Aurora, Fire, Ice, Night Sky effect, and the brand new Snow effect.

The new **Snow** effect has been specially designed to create the perfect winter scenes. The effect allows to achieve a highly realistic appearance or create a fantasy design using the **Snow Brush**. The tool allows generating thousands of snowflakes varieties!

In addition to the main effect, it is possible to imitate the **Fog** effect and adjust the color temperature of the image making it look cold and frozen.

Also, the new version offers the integrated *Notification Panel*, new ready-to-use presets, the *Chinese* interface language, some interface improvements and bug fixes.
