AKVIS has released the new [Shabby Chic Pack](#), designed exclusively for use in **AKVIS Frames** (freeware) and **AKVIS ArtSuite** (Standalone version). The set includes 100 digital picture frames of excellent quality.

*Shabby Chic* is a decor style that uses aged items to create a living space with a timeworn and nostalgic flair. It takes inspiration from the countryside living and chic vintage pieces. Shabby Chic is distinguished by using a palette of pastel colors: pink, lavender, light blue - all in conjunction with white. It is a perfect combination of vintage and modern, rustic and elegance: wood and iron elements, cozy fabrics and bohemian prints, antique items and feminine accents like dried flowers and candles. Shabby Chic blends the old with the new striking the perfect balance between luxury and lived-in.

Use these elegant picture frames to create a stylish photo book, design a personalized photo calendar, or simply frame your digital photos. These charming templates will give a romantic touch to any photo!
