

Steampunk Pack: An Exciting Journey into the World of Victorian Futurism

February 28, 2018 – AKVIS announces the new impressive set of picture frames - Steampunk Pack. The collection is inspired by the quirky and whimsical steampunk world and includes 100 ready to use picture frames, 50 horizontal and 50 vertical templates.

AKVIS extends the [Hobbies and Interests](#) frame packs collections with the brand new [Steampunk Pack](#)!

Steampunk is a subgenre of science fiction that merges steam-powered machinery and modern technology. Based on the so-called *scientific romances* of the Victorian era, steampunk romanticizes a historical period where human culture existed at the cusp of the Industrial Revolution. It re-imagines the world of the past and re-works its technology with a dose of alchemy. Steampunk fashion, at its heart, is a mixture of Victorian style with a retro-futuristic aesthetics. Feel the charm of classic steampunk elements: clocks, gears, screws, smoke stacks, chains, cogwheels, nuts and bolts, round sunglasses, leather boots, corsets, steampunk weapons, and the like.

Use these techno-eccentric picture frames to embellish your photos or create stylish steampunk party flyers and banners! Also, you can prepare an unforgettable gift for any steampunk fan by creating a truly personal greeting card or a memorable photo book. Become a time traveler and discover the mysterious world of steampunk!
