

AKVIS NATUREART 7.0: INCREDIBLE NATURE EFFECTS AT YOUR FINGERTIPS!

April 20, 2015 — AKVIS announces a major update of AKVIS NatureArt, a superior collection of the impressive nature effects for images. The software can be used as a standalone application and/or Photoshop plugin, on Windows and Mac OS X. Version 7.0 adds new features and tools.

AKVIS NatureArt is a unique and exceptional software for imitating the majesty and grandeur of natural phenomena on photos.

Nature effects have an impact on our mood and can be used to strengthen the impression made by a picture. Give a dull and lifeless photo an entirely new look by changing the weather on it. The spirit of the scene changes dramatically! Play with seasons changing, cover your picture with enchanted fog, add fire to your image, create surreal scenery... Feel like a wizard who can manipulate natural forces!

With the program you can choose and apply the dramatic, eye-catching effects: **Rain, Sun, Water, Lightning, Clouds, Frost, Rainbow, Fire, and Ice**. You can get the most out of these effects and create much more from them: snow from rain, moon from sun, moss from frost, etc.

The new version brings even better quality, more flexibility, and new features.

In Version 7.0:

- Added the new **Transform** tool that lets transforming selections and direction lines.
- Considerably improved the **Sun** effect. With the new algorithm and options the effect now works faster and gives better results.
- Added the *Reverse Colors* option to the **Rainbow** effect.
- Added the *Line Sets* (ready-to-use lightning layouts) to the **Lightning** effect.
- Added the possibility to import/export users presets.
- Added the new *History States* parameter to the program's Preferences.
- Improved the **Print** dialog. Now it's possible to print super high resolution images on multiple pages.
- And other changes and improvements.

[Download AKVIS NatureArt 7.0!](#) You can evaluate all features of the software during the 10-day trial period.

The software runs on Windows XP/Vista/Win7/Win 8 and on Mac OS X 10.6-10.10. The product is available as a standalone program and as a plugin filter for Adobe Photoshop and other image editors.

AKVIS NatureArt, Home license, sells for \$72. [Consult the official website](#) for more details about license types, versions, and prices of the software.

AKVIS (<http://akvis.com>) specializes in development of image processing software. Since the company's launch in 2004, it has released a number of successful products: standalone applications and Photoshop plugins for Windows and Macintosh.
