NEW AKVIS SKETCH VIDEO CLASSIC PLUGIN 1.0 – CONVERT VIDEO TO CARTOON!

AKVIS Launches New Plugin for After Effects & Premiere Pro

June 28, 2016 — AKVIS is excited to announce the release of AKVIS Sketch Video Classic plug-in v.1.0 for Adobe Premiere Pro and After Effects. The new filter comes in versions for Windows and Mac OS X.

With the new product, AKVIS opens up new horizons of creativity and enters the video editing software market.

AKVIS Sketch Video Classic is a brand new plugin for Adobe Premiere Pro and Adobe After Effects for converting videos into animated cartoons. The plugin comes to help the video editors to extend their functionality making it unlimited. Unleash the real power of a video editing program by adding the new plugin!

The plugin makes it easy to apply a pencil drawing style to compositions and movies. Only a few simple adjustments are required to create totally unique drawing effects, both black and white and color.

The filter includes a number of ready to use AKVIS presets and gives a user complete control over the effects. The settings are fully configurable and can be saved as user presets.

The plugin is brilliant for professional goals and for fun. It makes artistic projects much more interesting. It helps users to prepare video presentations and promo videos. It's perfect to create a slideshow in AE with the pencil drawing effects. It's indispensable to keep unforgettable memories of a trip, to cartoonize the baby's first steps or to brighten up the pet's adventures.

The software runs on Windows Vista, 7, 8, 8.1, 10 and on Mac OS X 10.7-10.11.

The free trial version is available at akvis.com for a 30-day evaluation period.

AKVIS Sketch Video Classic sells for $199. One license key allows activating the software on two computers.

AKVIS (akvis.com) specializes in development of image processing software and scientific research. The company was founded in 2004 by IT professionals having considerable experience in programming and software development. Since then the company has released a number of successful programs. The new video editing plugin opens up a new product line.
