

AKVIS Decorator 7.0: Processing Speed Increased by 3 Times!

May 28, 2019 – AKVIS announces the major update of AKVIS Decorator, a creative tool that makes you see things differently. Version 7.0 brings a number of improvements: 3 times faster processing speed, the new *Colorize* parameter in the *Texture* tab, the new *Crop* tool, the advanced *Eyedropper* tool, the *Notification Panel*, support for more RAW files, some new hotkeys, fixed bugs, etc.

AKVIS Decorator is designed to change the texture and color of any object in a realistic manner. The built-in library includes more than 1800 textures to choose from. Also, it is possible to load and use custom textures. The intelligent resurfacing technique is perfectly suitable for any kind of design-related projects: from interior design projects and architecture visualizations to web graphics and fashion concepts. AKVIS Decorator is a great tool for both professionals and amateurs!

Version 7.0 offers the significantly accelerated algorithm - now the processing speed is 3 times faster!

Also, the new *Colorize* parameter is available in the *Texture* tab. It is now possible to adjust the amount of blending between the texture and the manually selected color.

In addition, some other new features, tools and improvements are provided: the *Crop* tool, the advanced *Eyedropper* tool, the *Notification Panel*, new hotkeys, support for new RAW files, accelerated image loading, fixed bugs and increased program's stability.
