AKVIS Decorator 8.0 Makes It Easy to Add Textures to Photos

February 27, 2020 – AKVIS announces the update of AKVIS Decorator, a creative resurfacing and recoloring program. Version 8.0 includes support for user textures folder to keep custom patterns, adds new Smudge tool, offers better compatibility and increased stability.

[AKVIS Decorator](#) provides cutting-edge techniques to apply textures to images. The software effortlessly changes an object's surface, keeping its volume, following its folds and creases. Decorator includes an extensive collection with more than 1,800 textures to inspire users. Also, it is possible to load and use custom textures. The software offers the recoloring feature as well.

The intelligent software is perfectly suitable for any kind of design-related projects: from interior design projects and architecture visualizations to web graphics and fashion concepts. AKVIS Decorator is a great tool for both professionals and amateurs!

[Version 8.0](#) allows users to specify a custom texture folder that gives more flexibility and greater variety. Also, the update offers the Smudge tool to manually refine the image. In the new version, experimenting with materials and textures is faster and easier than ever. The only limit is imagination!

Additionally, the recent version offers full support for 2020 versions of the Adobe and Corel image editors, as well as the improved compatibility with macOS 10.15; support for more RAW files; fixes bugs and increases the program's stability.
