### New AKVIS Explosion 1.0 Software Brings Fabulous Effects to Your Photos

January 22, 2020 — AKVIS is proud to announce the launch of the brand new program- AKVIS Explosion 1.0 for creating destruction effects on photos. The program bursts an object and adds dust and sand particles to an image. The software is available in versions for Windows and Mac.

AKVIS expands its product portfolio with the release of the new software!

[AKVIS Explosion 1.0](#) offers creative destruction and particle explosion effects for photographs. It bursts a part of an image and splits it up into a flying cloud of particles. The software makes it easy to transform an image into a sandstorm, create a speed motion effect with a glowing trace, apply magic whirlwind swirls to pictures, and everything our imagination can suggest!

With Explosion, it is also possible to create stylized images by adding leaf fall, snowfall, falling stars, flying hearts or fluttering butterflies, and other patterns. The program is equipped with an extensive texture library and offers the possibility to load a custom sample.

The software provides an effective and entertaining way to produce sensational effects. Create eye-catching graphics in just a few minutes!
