

## AKVIS NatureArt 12.1: Nature Effects for Your Photos

*August 15, 2023 – AKVIS announces an update of AKVIS NatureArt, cross-platform software which allows users to add natural phenomena to images. Version 12.1 offers an updated algorithm for the Ice effect and some usability, compatibility, and stability improvements.*

[AKVIS NatureArt](#) allows users to add natural phenomena to images. With the software, it's easy to change the weather, time of day, season, or other features in photos. The program equipped with [12 nature effects](#) and a versatile collection of impressive presets, allows users to create realistic landscapes and fantasy designs. Add some flair to your photo, freeze your picture or light it up, put a magnificent rainbow, add scattering stars, iridescent nebulae, or a raging flame!

The NatureArt software allows users to manipulate these breathtaking nature effects: [Rain](#), [Sun](#), [Water](#), [Lightning](#), [Clouds](#), [Frost](#), [Rainbow](#), [Aurora](#), [Fire](#), [Ice](#), [Night Sky](#), and [Snow](#). From these basic effects it's possible to create an even wider variety of natural phenomena: transform the sun into the moon, get moss from frost, create clouds-based fog, and much more!

[Version 12.1](#) offers an improved algorithm for the [Ice](#) effect which helps you to cover any surface in ice. The update offers enhancements in the algorithm of this premium effect, providing better adjusting of icing to selection edges. With this spectacular effect, it's possible to bring a breath of frosty air to the hottest summer day.

Also, the new version includes some usability, compatibility, and stability improvements.

AKVIS NatureArt is available for download at [akvis.com](https://akvis.com). It's possible to try all features of the software during the 10-day trial period.

The software is multi-platform and runs on Windows 7/8/8.1/10/11 (32/64-bit), macOS 10.12 (Sierra) - macOS 13 (Ventura) (64-bit), and Linux OS (64-bit).

AKVIS NatureArt can be used as a standalone application and as plugin for compatible graphics editors: [AliveColors](#) by AKVIS, Adobe Photoshop, Corel PaintShop Pro, Affinity Photo, ON1 Photo RAW, and other [image editing programs](#).

The program supports a multi-language interface and allows users to change the language in the program preferences on the fly.

AKVIS NatureArt comes in Home, Home Deluxe, and Business lifetime licenses, with differing levels of functionality. The Home license (Plugin or Standalone, 8 effects) sells for \$ 72, Home Deluxe license (Plugin+Standalone, 12 effects) is available for \$ 106, the Business licenses (Plugin+Standalone, 12 effects, for commercial use) - for \$ 189.

The update is free for users who bought the software in the last 12 months. Users, whose licenses are older and are not valid for the new version, can get NatureArt 12.1 for only \$14.95. For more details about the software, please visit [akvis.com](https://akvis.com).
