AKVIS Noise Buster AI 13: AI-Powered Noise Reduction. Now Better and Faster!

April 8, 2025 – AKVIS is excited to announce a major update of AKVIS Noise Buster AI 13.0, the AI-based noise reduction software. Version 13.0 introduces fully re-trained neural networks which provide professional quality results and fast processing, as well as a range of improvements and fixes.

AKVIS Noise Buster AI is powerful AI-based software that efficiently removes digital noise and grain from images. The program includes three modes (three neural networks): *Weak Noise*, *Strong Noise*, and *Strong Compression with Noise*. Select the noise suppression mode that suits your photo best, and the program will use the appropriate neural network.

Version 13.0 offers the modernized artificial intelligence algorithms re-trained on real photographs with noise and defects. The new version provides better detail and accuracy, as well as accelerated processing. Enhance your photos with a click!

Now, the program works with AMD and NVIDIA graphics cards. Also, the new version offers the improved user interface, support for the TGA format, fixed bugs and improved stability.

AKVIS Noise Buster AI 13.0 is available for download at akvis.com. Users can try all features during the 10-day trial period.

This cross-platform 64-bit software runs on Windows 10-11, macOS 10.12 (Sierra)-macOS 15 (Sequoia), and Linux (Debian/Ubuntu/Red Hat/CentOS/Fedora/openSUSE).

AKVIS Noise Buster AI can be used as a standalone application as well as plugin for AliveColors by AKVIS, Adobe Photoshop, Adobe Photoshop Elements, Corel PaintShop Pro, Affinity Photo, and other compatible image editing programs.

The program supports a multi-language interface. It is available in English, German, French, Spanish, Portuguese, Italian, Russian, Chinese (Simplified), and Japanese.

AKVIS Noise Buster AI comes in Home, Home Deluxe, and Business versions (lifetime licenses), with differing levels of functionality. The Home license sells for $ 49.00.

The update is free for users who bought the software in the last 12 months. Users, whose licenses are older and are not valid for the new version, can get Noise Buster AI 13.0 for only $14.95.

For more details about the software, please visit akvis.com.

AKVIS (akvis.com) specializes in the development of photo and video processing software. Since its launch in 2004, the company has released a wide selection of successful multi-platform products. The company keeps up with the times, updates its products with cutting-edge technologies, and launches innovative, inspiring products.
