

Complex Selections Made Easy in AKVIS SmartMask 11.0: New Desaturation Brush

April 9, 2019 – AKVIS announces the release of SmartMask 11.0, a perfect tool for creating professional quality selections. The recent version offers the new Desaturation Brush that reduces the colors on the cutout edges and makes the subject blend more with the new background. With AKVIS SmartMask, creating precise selections is quicker and easier than ever before!

[AKVIS SmartMask](#) makes the dull process of image masking fun and entertaining and saves you hours of tedious manual selection. The software easily handles even difficult objects like hair, fur, feathers, tree branches, or semi-transparent details. AKVIS SmartMask works in two basic modes - *Auto* and *Manual* - and offers additional modes such as *Chroma Key* and *Refine Edges* that are especially effective when working with monochrome backgrounds or for refining the automatic processing result. Also, it is possible to load and adjust a custom background.

[Version 11.0](#) offers the new [Desaturation Brush](#) that makes colors more muted. The tool allows to get rid of the reflexes of the background color, which often remain on the edges of the fragment after creating the selection. Also, the recent version accelerates the processing speed in the *Refine Edges* mode and brings stability improvements and some bug fixes.

[Download AKVIS SmartMask 11.0](#) and try all features of the software during the 10-day trial period.

The software runs on Windows 7, 8, 8.1, 10 - 32-bit, 64-bit; Mac OS X 10.11 and macOS 10.12-10.14 - 64-bit. The product is available as a standalone application and as a plugin filter for [AliveColors](#), Adobe Photoshop, Corel Photo-Paint, and [other image editors](#).

AKVIS SmartMask, Home license, sells for \$69. One license key allows activating and using the software on two computers. [Consult the official website](#) for more details about license types and prices of the software.

The update is free for users who bought SmartMask in the last 12 months. Users, whose license is older and is not valid for the new version, can get SmartMask 11.0 for only \$14.95.

AKVIS ([akvis.com](#)) specializes in the development of video & image processing software. Since the company's launch in 2004, it has released a number of successful products: standalone applications and Photoshop plugins for Windows and Mac.
