

AKVIS SmartMask AI 14: Improved AI-Powered Object Selection

May 26, 2025 – AKVIS is excited to announce a major update of AKVIS SmartMask AI! Version 14 offers the updated AI-powered selection tools, improved Refine Edge feature, and other enhancements and fixes.

AKVIS SmartMask AI makes even a difficult selection incredibly simple. Equipped with artificial intelligence tools, the program allows you to quickly select an object in an image and remove a background.

Version 14 offers the updated AI-based selection tools with a re-trained neural network, providing better results and fast processing. Also, the new version includes the enhanced Refine Edges feature with new tools to edit selection edges, support for AMD graphics cards, and a number of other improvements and fixes.

With the release of this version, AKVIS ends support for Windows 7-8 and for macOS 10.12-10.14 for the product.

AKVIS SmartMask AI 14 runs on Windows 10-11, macOS 10.15 (Catalina)-macOS 15 (Sequoia), and Linux (Debian/Ubuntu/Red Hat/CentOS/Fedora/openSUSE).

The software is available for download at akvis.com. The 10-day trial period allows users to try all features without registration.

The program supports multiple languages: English, German, French, Spanish, Portuguese, Italian, Russian, Japanese, and Chinese (Simplified). Users can switch the interface to their language in the program preferences.

The software can be used as a standalone application and plugin for compatible graphics editors: **AliveColors** by AKVIS, Adobe Photoshop, Corel PaintShop Pro, and others.

The product comes in lifetime licenses: Home (either Plugin or Standalone, \$ 69), Home Deluxe (Plugin & Standalone, \$ 90), and Business (Plugin & Standalone for commercial use, \$ 120). The update is free for users who bought the software in the last 12 months. Users, whose licenses are older and are not valid for the new version, can get AKVIS SmartMask AI 14 for only \$14.95.

For more details about the **AKVIS SmartMask AI** software, please visit akvis.com.
