

MASSIVE UPDATE OF ALL AKVIS PROGRAMS!

April 27, 2017 — AKVIS announces the update of all programs! The new versions provide a vector-based user interface with support for Ultra HD displays, full compatibility with Photoshop CC 2017, some bug fixes, and other improvements.

25 AKVIS image enhancement programs have been updated!

AKVIS offers a variety of high-quality software products that cover a wide range of customer requirements. The programs can be divided into several categories according to their functionality: **Artistic Effects**, **Special Effects & Decoration**, **Photo Retouching**, **Image Enhancement**, and **Professional Tools**. The software products provide cutting edge technologies allowing to rationalize workflow efficiency and quickly achieve impressive results. Get creative with AKVIS!

The new versions offer a redesigned interface with support for Ultra HD resolution, enhanced compatibility with Photoshop CC 2017, bug fixes, and some other changes.

[Download free trial versions](#) and try all the features during the free 10-day evaluation period!

The programs run on Windows XP, Vista, 7, 8, 8.1, 10; and Mac OS X 10.7-10.12. All of them are available as Photoshop compatible plug-ins and as standalone applications.

The upgrade is free for *recent* buyers of AKVIS programs as well for those who bought 1 Year of Updates during the last 12 months. Users whose licenses are older and are not valid for the latest versions can update each program for **\$14.95** or update all of the products at once for only **\$39.95**.

The programs can be bought separately or all together in the **Alchemy Bundle** (60% Off).

AKVIS (<http://akvis.com>) specializes in development of image and video processing software. The company was founded in 2004 by IT professionals having considerable experience in programming and software development. Since then the company has released a number of successful programs for Windows and Mac.
