

AKVIS SKETCH VIDEO 3.1: TURN VIDEOS INTO MOVING PENCIL SKETCHES!

November 8, 2017 — AKVIS announces the release of AKVIS Sketch Video 3.1. The new version provides full compatibility with Premiere Pro CC 2018 and After Effects CC 2018.

AKVIS Sketch Video is an After Effects and Premiere Pro plugin for converting videos into animated cartoons, both black and white and color.

AKVIS Sketch Video offers two drawing styles: *Classic* and *Artistic*, each with a number of ready-to-use presets for 4K, HD, and SD video formats. The Classic style is characterized by well-defined contour lines; the Artistic style imitates hand-drawn animation. Both styles offer a variety of settings and allow users to achieve wildly diverse results in a few clicks. In spite of the ease of use, the effects look highly professional and make any real life video truly eye catching.

Version 3.1 is fully compatible with Premiere Pro CC 2018 and After Effects CC 2018.

Download AKVIS Sketch Video 3.1 and start your 30-days free trial!

The software runs on Windows Vista, 7, 8, 8.1, 10; Mac OS X 10.7-10.11 and macOS 10.12-10.13 (High Sierra).

AKVIS Sketch Video Home sells for \$ 69, Pro for \$99. One license key allows activating the software on two computers.

The update is free for users who bought or upgraded Sketch Video in the last 12 months. Users, whose license is older and is not valid for the new version, can get Sketch Video 3.1 for only \$14.95.

AKVIS (akvis.com) specializes in development of image and video processing software. Since the company's launch in 2004, it has released a number of successful products: AliveColors image editor, standalone applications and Photoshop plugins for Windows and Mac.
